

IMONEX® R7 Series for American Dryer

Shown: IMONEX® Front view of R7 Series for American Dryer

SIMPLIFY CUSTOMER'S NEEDS AND INCREASE PROFITS

- Most reliable payment system
- Accepts higher valued coins
- Reduces coinage by 75%
- Simple, and less overhead than debit systems
- Increases dryer revenue
- Repair on location
- Easy to install
- Optics enclosed in non-opaque plastic
- Several single and multi-coin combinations available
- Increases Dryer run time

Multi-Coin – One Inlet

Proven and Reliable

- The R7 Series accepts single or multiple coins in one coin slot. No need for two acceptors side-by-side
- The IMONEX® patented design operates without moving parts and accepts bent, damaged, or dirty coins while providing excellent fraud protection
- A synthetic housing and stainless steel on all metallic parts, virtually eliminates corrosion
- Highly reliable optical coin sensing. Custom injected molded housing protects optics from environment
- IMONEX® incorporates an easy installation design. No need to reach into the meter case to tighten the nuts
- Enclosed coin races provide protection from dust and lint build-up
- Available for over 98% of world coins
- Includes coin return button for clearing lodged coins
- Fast coin insertions do not jam the acceptor
- IMONEX® retrofits most of your machines
- Validates up to four coin/token combinations with two values
- Made in the U.S.A.
- Designed specifically for American Dryer
- For drawing and technical information visit www.imonex.com

THE IMONEX® SYSTEM

At the heart of IMONEX® is our patented, manual coin processing system. Based on the principle of inventive geometry, it works without electronics or tilted coins. It does not require adjustment and is designed to withstand years of abuse. The IMONEX® field-proven system substantially reduces coin jams while providing higher valid coin acceptance, including the processing of bent coins. The result is dramatic reductions in coin related service overhead for higher operator profits.

THE COMPANY

Find out for yourself why IMONEX® dominates so many coin acceptor markets. Specialization and experience help set IMONEX® apart from the rest. Since 1982, IMONEX® has served coin mech users throughout the world with uncompromised product quality and support.
